SUMMARY

Completed a 6-month internship as a Django Developer Intern with hands-on experience in building and maintaining web applications using Python and Django. Worked on e-commerce website development, custom templates, responsive UI design using HTML, CSS, Bootstrap, and JavaScript, and version control with GitHub. Gained practical experience in developing database-driven features and delivering user-focused web solutions. Currently seeking a full-time Django Developer opportunity to apply and expand my technical skills in a professional environment.

WORK EXPERIENCE

Django Intern , Lagran Software Solutions

Nov 2025- May 2026

- Developed and maintained backend logic for e-commerce web applications using Django and Python.
- Built and configured custom Django Admin panels to manage products, orders, users, and site content efficiently.
- Designed and managed relational databases including schema creation, querying, and data management using Django ORM.
- Converted Figma UI designs into pixel-perfect, responsive HTML/CSS/Bootstrap frontend templates.
- Integrated dynamic content throughout the application by connecting frontend templates to Django views and models.
- Made all website content fully dynamic using Django template engine, eliminating hardcoded data across pages.
- Implemented JavaScript for interactive frontend features including form validation and dynamic UI elements.
- Collaborated with the design team to ensure accurate translation of visual mockups into functional web pages.
- Maintained clean, version-controlled codebase using Git and GitHub across the full development cycle.

SKILLS

- Programming Languages: Python, JavaScript
- Frameworks & Libraries: Django, React.js, Node.js
- Frontend Technologies: HTML5, CSS3, Bootstrap
- Backend Technologies: Django, REST API Development
- Version Control: Git, GitHub
- Database: SQLite, MySQL
