Professional Summary

Python Full Stack Developer with 6 months of professional internship experience in software development. Skilled in Python, Django, Django REST Framework, JavaScript, SQL, and MySQL, with hands-on experience developing backend applications, working with databases, debugging application issues, and using Git/GitHub. Strong analytical and problem-solving abilities with good written and verbal communication skills. Seeking an entry-level software engineering opportunity to contribute to software development, testing, and debugging.

Technical Skills

Programming Languages : Python, JavaScript
Backend : Django, Django REST Framework, REST APIs, CRUD Operations, Django ORM, JWT Authentication
Databases :PostgreSQL, MySQL, SQL
Frontend : React.js, Vite, HTML5, CSS3, Bootstrap, Tailwind CSS
Tools : Git, GitHub, VS Code, Postman, Pycharm
Soft Skills : Problem Solving, Analytical Thinking, Communication, Teamwork Collaboration, Time Management

Experience

Python Backend Developer | *Lagran Software Solutions* *Nov 2025 – May 2026*

- Developed e-commerce backend functionality using Python and Django, including product listings, user sessions, and order workflows.
- Built Django Admin panels for managing products, orders, users, and site content.
- Designed database models and performed CRUD operations, migrations, and queries using Django ORM.
- Converted Figma designs into responsive HTML, CSS, and Bootstrap templates and implemented dynamic content using Django templates.
- Integrated frontend templates with Django views and models and implemented JavaScript-based form validation and UI interactions.
- Used Git and GitHub for version control and debugging throughout the development lifecycle.

Education

Government Arts College for Women **Master of Arts in English** | Pudukkottai, Tamil Nadu *Sep 2022 – Apr 2024*
J.J College of Arts and Science **Bachelor of Arts in English** | Pudukkottai, Tamil Nadu *Jul 2019 – Apr 2022*
Vairams Matriculation Higher Secondary School **High School** | Pudukkottai, Tamil Nadu *June 2018 – March 2019*
Karpaga Vinayaga Matriculation Higher Secondary SchoolJune **SSLC** | Pudukkottai, Tamil Nadu *June 2016 – March 2017*

Projects

Hospital Management System | *React.js, Vite, Tailwind CSS, Django, Django REST Framework, PostgreSQL, JWT, Axios, Git, GitHub*

- Developed a full-stack Hospital Management System to manage patients, doctors, and appointments.
- Built REST APIs using Django REST Framework and integrated them with the React.js frontend using Axios.
- Implemented CRUD operations for patient, doctor, and appointment management.
- Used PostgreSQL and Django ORM for database management and data operations..
- Implemented JWT authentication and developed a responsive dashboard using React.js and Tailwind CSS.
- Used Git and GitHub for version control and project management.

RecipeHub – Recipe Search Web Application | *React.js, JavaScript,REST API Spoonacular API, CSS*

- Developed a recipe search application using React.js.
- Integrated the Spoonacular REST API to fetch recipe and ingredient information.
- Implemented recipe search, recipe details, ingredients, and cooking instructions.
- Used React components, state management, and useEffect for dynamic data handling.
- Protected the API key using environment variables.

Smart Expense Tracker API | *Python, Django REST Framework, MySQL*

- Developed REST APIs for managing expense data using Python, Django REST Framework, and MySQL, with database operations handled through Django ORM and SQL.
- Developed REST APIs to add, view, filter, and delete expenses, with category-based expense tracking.
- Implemented total expense and category-wise expense calculations using Django ORM and MySQL.

Certifications

Python Full Stack Development Certification *2025*

- HTML, CSS,Bootstrap, Javascript, React js, Python, Django, Mysql

DCA (Diploma in Computer Applications) *2024*

- MS - World, MS - Excel, MS - Powerpoint, HTML
